

OUTDOOR TREATMENT

PIETRANAT

PIETRANAT – NATURAL EFFECT TREATMENT

Pietranat protects La Pietra Compattata, reducing its absorption capacity.

It does not alter the appearance, colour or technical characteristics of the product.

Pietranat is water-based, therefore it is more environmentally friendly and easy to apply.

- APPLICATION: apply the product to a clean, dry surface using a brush or roller on the floor.
- MAINTENANCE OF THE TREATED SURFACE: use the neutral PIETRACLEANER detergent.
- YIELD: 10 m²/l approx. per application.
- NOTE: Sensitive to frost. Store at a temperature above 5 °C.

PIETRAWET

PIETRAWET – WET-EFFECT TREATMENT

Pietrawet protects La Pietra Compattata, reducing its absorption capacity and intensifying the colours of the surface (wet effect), without altering the technical characteristics.

Pietrawet is solvent-based.

- APPLICATION: apply the product to a perfectly clean, dry surface using a brush or roller on the floor.
- MAINTENANCE OF THE TREATED SURFACE: use the neutral PIETRACLEANER detergent.
- YIELD: 6 m²/l approx. per application.
- NOTE: shake gently before use. Sensitive to frost. Store at a temperature above 5 °C.

INDOOR TREATMENT

For treatment of La Pietra Compattata in indoor spaces, apply in the following order PIETRABASE, INTERIOR and either CERAMATT or CERALUX.

PIETRABASE – ANTI-DUST PROTECTION

Wax-resin emulsion for a levelling base treatment of La Pietra Compattata in interior applications. Allows La Pietra Compattata to breathe and eliminates surface dust accumulation.

Water-based product.

- APPLICATION: can be used neat or diluted in water. Apply with a wax spreader, soft cloth or sponge. Apply in a thin layer, wetting the surface uniformly without leaving excess product on the surface. Generally dries in 2-3 hours.
- YIELD: 10 m²/l approx.

INTERIOR – ANTI-STAIN PROTECTION

Anti-stain protection. The product forms no surface film and does not alter the appearance of La Pietra Compattata.

Water-based product.

- **APPLICATION:** shake before use. Suitable for spray, wax spreader, brush, soft cloth or sponge application as required, wetting the surface uniformly. Dab any excess liquid during drying. Normally dries in 2-3 hours.
- **YIELD:** 12 m²/l approx.

CERAMATT- MATT ANTI-DIRT FINISH TREATMENT

Water-based anti-stain, anti-dirt finish treatment. Matt wax-resin emulsion. Allows the material to breathe. For indoor use.

Water-based product.

- **APPLICATION:** shake before use. Normally used neat. Apply 2 thin coats. The product can be applied using a wax spreader, cloth or sponge. Apply in a thin layer, wetting the surface uniformly without leaving excess product on the surface. Apply the second coat as soon as the first coat is dry. Normally dries in 2-3 hours.

- **MAINTENANCE OF THE TREATED SURFACE:** use the neutral PIETRACLEANER detergent.

To maintain the wax effect, add a capful of wax to the water when washing the floor. This operation is recommended a couple of times a month.

- **YIELD:** 20 m²/l approx.

CERALUX - SHINY ANTI-DIRT FINISH TREATMENT

Water-based anti-stain, anti-dirt finish treatment, shiny wax-resin emulsion. Allows the material to breathe.

Water-based product.

- **APPLICATION:** shake before use. Normally used neat. Apply 2 thin coats. The product can be applied using a wax spreader, cloth or sponge. Apply in a thin layer, wetting the surface uniformly without leaving excess product on the surface. Apply the second coat as soon as the first coat is dry. Normally dries in 2-3 hours.

- **MAINTENANCE OF THE TREATED SURFACE:** use the neutral PIETRACLEANER detergent.

To maintain the wax effect, add a capful of wax to the water when washing the floor. This operation is recommended a couple of times a month.

- **YIELD:** 20 m²/l approx.

PIETRACLEANER - CONCENTRATED NEUTRAL DETERGENT

Concentrated detergent. Neutral detergent for routine cleaning of La Pietra Compattata. Combines a sanitizing action with effective but gentle de-greasing. Streak-free, it leaves a pleasant fragrance in rooms treated.

Foaming detergent.

- **APPLICATION:** product concentration depends on the type of dirt to be removed. Diluted 1:80 – 100 parts water (1/4 cup in 8 – 10 l of water) for everyday cleaning.

- **YIELD:** depending on concentration used.
